The bilingual interface is even easier to use

New full-text grammar and spell check

Automatically detects the language of a sentence (using Lingua D-Tech)

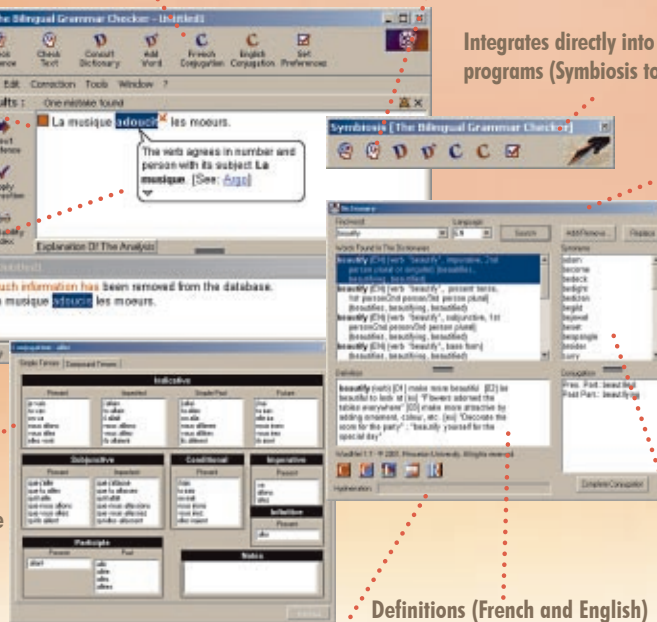

Integrates directly into most software programs (Symbiosis toolbar)

The super dictionary groups all of the reference tools together

Performs a complete grammatical analysis of complex sentences in English and in French.

Includes a complete French conjugation table (simple and compound tenses)

Features VerbExpert, a tool that helps you build your English verb phrases

One-button links to the Collins, Petit Robert, Petit Larousse and bilingual Larousse dictionaries (sold separately)

Definitions (French and English)

Easy access to synonyms using hyperlinks (French and English)

10 times faster than the previous version!

Correction adapted to users writing in their second language; either English or French. Detects frequently misused words, newly-coined terms, regionalisms and archaic expressions as well as informal, gender-specific or offensive language.
